The Staff Impact Awards celebrates those who champion volunteerism and service within the university — going above and beyond by taking on additional challenges. It honors staff who are wall-breakers and bridge-builders — people who find ways to collaborate across units and find solutions to make the workplace better for us all. And it seeks to recognize staff, supervisors and teams that make an impact with their work, locally and beyond. The awards were developed from recommendations of a Voices of the Staff committee in order to recognize the value of staff who do exemplary work and build positive culture.
