

U-M Prescription Drug Plan Temporary ID Card

If you need to fill prescriptions before you receive your University of Michigan Prescription Drug ID card from MedImpact, enter your name, the names of your eligible dependents, and your ID number on this temporary ID card, print it out and present it to a participating retail pharmacy along with your prescription to be filled.

If you have lost your ID card, please call MedImpact Member Services at 800-681-9578 or use the MedImpact self-service website to print your own card: mp.medimpact.com/umh

Your ID card can be used at a local retail pharmacy or at NoviXus, the university's mail order pharmacy. Mail service is a convenient and cost-effective way to have 90-day supplies of maintenance medications delivered to your home.
